Very EZ Eye Pillow was designed by knitvana.com

To knit this eye pillow you can use any soft yarn. You can use cotton yarn leftovers, or something fancy like Bernat Organic yarn or Bernat Bamboo yarn. You can also use needles of any size, just follow our instructions below on calculating how many stitches you'll need. The width of finished pillow is 4 inches (10 centimeters). The length of our pillow is 10.5 inches (27 centimeters), but you can make it shorter or longer if you want.

When you finish knitting, sew the eye pillow together, sew a cotton bag, fill it with organic rice or beans and put it in the knitted pillow case.

You can heat the pillow in a microwave oven - it will help you to relax.

How Many Stitches?

Cast on 12 stitches. Knit Rows 1,3: (1K, 1P)* and Rows 2,4: (1P, 1K)*

Measure 10 stitches in the middle in inches or millimeters

In the chart find the number of stitches.
